

Amendments To The Specification

Please replace paragraph [0006] in the specification page 2, lines 14-21 with the following amended paragraph:

Accordingly, the present invention has been made to solve the above-mentioned problems occurring in the prior art, and an object of the present invention is to provide a method enabling a person requiring Soojichim acupuncture for health maintenance and treatment to easily perform it by oneself at home by **making an instantaneous molding of body of the person requiring Soojichim acupuncture and** forming a copy of the ~~person's~~ body **of the person requiring Soojichim acupuncture from the instantaneous molding; [[,]]** and marking acupoint locations **and a reference point for attachment** on the body copy; **and then attaching the body copy onto the body; by force of a specialist in Chinese medicine,** and then performing Soojichim acupuncture according to the marked acupoint locations **by the person requiring Soojichim acupuncture.**

Please replace paragraph [0007] in the specification page 2, lines 22-28 with the following amended paragraph:

To achieve the above object, the present invention provides a

method enabling a person requiring Soojichim acupuncture to perform it by oneself, which comprises the steps of: making an instantaneous molding of body of the person requiring Soojichim acupuncture and forming a copy of the body of the person requiring Soojichim acupuncture from the instantaneous molding; marking acupoint locations and a reference point for attachment on the body copy ~~by force of a specialist in Chinese medicine~~; attaching the body copy ~~to the corresponding portion of~~ onto the body; and performing Soojichim acupuncture according to the marked acupoint locations by the person requiring Soojichim acupuncture.

Please replace paragraph [0013] in the specification page 5 lines 1-3 with the following amended paragraph:

First, as shown in FIG. 2a, an instantaneous molding 10 is made.
Next, as shown in FIG. 2b, a copy of the human body 20 is formed using the instantaneous molding 10.

Please replace paragraph [0014] in the specification page 5 lines 4-12 with the following amended paragraph:

In this case, the body copy 20 is formed in the same manner as a body copy that is mainly used in body copy shops or medical offices,

which are currently managed in various areas. In other words, as shown in FIG. 2a, the instantaneous molding 10 is made by a conventional method allowing ~~precious~~ precise expression of fingerprints or pores of any desired body portions, such as hand, foot, ear and the like, and then, as shown in FIG. 2b, the body copy 20 is formed using the instantaneous molding 10.

Please replace paragraph [0015] in the specification page 5 lines 13-18 with the following amended paragraph:

The instantaneous molding 10 of the body is easily made at home by means of an instantaneous molding kit. Alternatively, it is made in the body copy shop in an inexpensive, easy and rapid manner. Generally, the instantaneous molding 10 is made from vegetable silicon, synthetic clay, synthetic resin or the like.

Please replace paragraph [0016] in the specification page 3 line 28 to page 4 line 1 with the following amended paragraph:

Such an instantaneous molding can precisely express the body portions, and also if once it is made, it is not deformed so that it can be stored for a long period of time. The instantaneous molding 10 is preferably formed on the basis of the body part (for example, hand,

foot, ear or the like) which needs to subject Soojichim acupuncture of the person requiring Soojichim acupuncture. Then, the instantaneous molding 10 is used for forming a copy of the body of the person requiring Soojichim acupuncture from the instantaneous molding 10. Thus, after the body copy which was formed on the basis of the instantaneous molding 10 is used in Soojichim acupuncture, the used body copy is re-used in subsequent Soojichim acupuncture. If the body copy gets damaged, there can be used a new body copy which is formed using the stored instantaneous molding 10.

Please replace paragraph [0017] in the specification page 4, lines 2-6 with the following amended paragraph:

The body copy of hand, foot, ear or the like formed as described above is sent to a specialist in Chinese medicine or Soojichim acupuncture. By ~~[[force]]~~ virtue of the specialist or according to the identified acupoint locations by Internet or books known to those skilled in the art, acupoint locations effective for disease treatment are marked or drilled on the body copy in view of the age or physical conditions of a person requiring Soojichim acupoint.

Please replace paragraph [0018] in the specification page 4, lines 7-10 with the following amended paragraph:

In addition to the acupoint locations 31, as shown in FIG. 3, **[[a]]** reference ~~point is~~ points 32 are marked on the body copy 20 in order to prevent the marked acupoint locations of the body copy from being deviated from the corresponding acupoint locations 31 of the body upon attachment of the body copy 20 to the body.
